AEGIS

HUMANITARIAN AND MENTAL HEALTH EVALUATIONS, LLC

Attorney Referral Guide

Travis Baird, PMHNP · Clinical Lead

What we provide

Independent mental health evaluations for adult clients in immigration matters, with a signed written report. Evaluations are conducted by a psychiatric mental health nurse practitioner with additional adult-gerontology primary care training, in English or Spanish, with qualified interpreters for other languages.

Matter	Form	Typical clinical question
Asylum / withholding / CAT	**I-589**	Mental health effects of reported harm; effects on testimony
Extreme hardship waivers	**I-601, I-601A**	Qualifying relative's mental health; separation and relocation scenarios
VAWA self-petition	**I-360**	Clinical effects of reported battery or extreme cruelty
U visa	**I-918**	Substantial mental harm from a qualifying crime
T visa	**I-914**	Mental health consequences of reported trafficking

Not offered at launch: pediatric, neuropsychological, competency, or N-648 evaluations.

Timeline

Final report in **15 business days** after the last interview and receipt of records. Expedited delivery (+$350) is available when capacity allows. A delivery date is confirmed in writing at booking.

Fees

Standard adult evaluation **$1,500** · Complex (up to 100 pages of records) **$1,900** · Additional work **$200/hr** · Testimony and preparation **$250/hr**. 50% at booking and 50% before delivery. No referral fees, contingent fees or exclusivity.

Referral checklist

- ☐ Client name, preferred language and safe contact method
- ☐ Client's physical location (telehealth only within Maryland)
- ☐ Case category and **actual** filing deadline
- ☐ Person to be evaluated (for hardship matters, the qualifying relative)
- ☐ Specific clinical questions the report should address
- ☐ Relevant records: declaration, prior filings, medical or therapy records
- ☐ Signed release naming the authorized recipient(s)
- ☐ Whether testimony, updates or translations are anticipated
- ☐ Who is paying: client, family, firm or organization

Independence

> Reports are independent clinical opinions. They distinguish what the client reported, what was observed and what is clinically inferred, and they state their limitations. We welcome factual corrections before finalization. We do not accept requests to change supported conclusions. This independence is what makes the report credible to adjudicators.
